

**AUDIT COMMITTEE WORK PROGRAMME****Purpose**

1. To review and agree the Audit Committee's future work programme.

**Work Programme**

2. The work programme has evolved since the Audit Committee's inception to include cyclical financial, risk and performance reporting but also to review specific areas focussing on key risk areas for the Association. Proposals for the future work programme that encompasses the cyclical work but allows scope for specific, broader reviews are attached at **Annex 1**. The shaded items are 'out of synch' or delayed with their traditional cycle and need to be brought back in line by next April.

**Recommendations**

3. **It is recommended that Members discuss and agree the proposed work programme, adding in any further areas for review.**
